Interpon D2015 Ultriva™

Ultra Durable Architectural Powder Coatings

Interpon D2015 Ultriva™

ULTRA DURABLE ARCHITECTURAL
POWDER COATINGS

WORLD'S LEADING COATINGS COMPANY

Interpon Powder Coatings is a global brand of AkzoNobel, a world leading supplier of paint and powder coatings. Home to the Aesthetics Centre, AkzoNobel have extensive experience in color research, design trends and architectural color prediction.

This extensive color experience ensures architects, designers and specifiers have complete Color Freedom when specifying Interpon D, the preferred powder coating for the architectural market. Guaranteeing superior color retention and film performance, the Interpon D range of powder coatings ensures optimal aesthetic, technical and economical performance for your project.

The **Interpon D2015 Ultriva™** powder coatings range offers ultra durability and guaranteed performance. Engineered using AkzoNobel's ultra durable polymer technology, Interpon D2015 Ultriva™ is perfect for all prestigious commercial buildings and high rise developments where long term optimal architectural, aesthetic, technical and economic performance is required.

For absolute customer satisfaction, coating performance of the Interpon D2015 Ultriva™ product range is supported with a 15 Year Gold Global Warranty when applied by an Interpon D Approved Applicator.

The ultra durability of Interpon D2015 Ultriva™ ensures the range resists the attack of weather elements, protecting your investment and providing peace of mind with a 15 Year performance guarantee.

ADVANCED WEATHERABILITY & RESISTANCE

Proven Weathering Resistance:

Interpon D2015 Ultriva™ is formulated to exceed the standard AAMA2604-05 and offer significantly increased protection and performance compared to standard architectural powder coatings. Excellent gloss retention and resistance to chalking are made possible using an innovative polymer system developed by AkzoNobel, while the careful selection of the most durable pigments ensures excellent color stability.

Proven Damage Resistance:

Interpon D2105 Ultriva™ provides advanced damage resistance from abrasive wear proven through extensive laboratory testing and field performance on a wide variety of applications. The range features enhanced resistance to scuffing, scratching and marking, reducing transportation damage and damage inflicted by packaging materials. The advanced weathering and damage resistance of Interpon D2105 Ultriva™ ensures the range is an exceptional cost effective alternative to PVDF liquid paint products.

RECOMMENDED APPLICATIONS

Interpon D2015 Ultriva™ is recommended for exterior use in high Ultra Violet and high humidity environments where ultra durable coating performance is required. The range is ideal for architecturally designed high rise applications and prestigious commercial projects.

Typical applications include aluminium curtain wall extrusions and panels, architectural window and door systems, balustrades, louver systems and other fabricated architectural aluminium sections.

Product Features

Warranty:

15 Year Gold Global Warranty* for film integrity and color fastness

Performance Specifications:

AAMA2604-05

Standard Gloss Level:

Gloss, satin and matt

Standard Shades:

Broad range of stock colors available

Pearlescent Effects:

Yes, **Interpon Vivica™ Pearlescent Range**

Textured Effects:

Yes, **Interpon Sable™ Collection**

Anodic Effects:

Yes, **Interpon Collection Anodic**

Custom Shades Available:

Custom colors can be matched rapidly on request and supplied in quantities as small as 20kg. Color offer is subject to technical approval

Environmental Suitability:

All locations including coastal marine and tropical

COLOR AND DESIGN

People are driven by emotion, and color elicits emotions in people. As the world's largest coatings company and home to the Aesthetics Centre, our in-house color and design centre, AkzoNobel has extensive experience in architectural color and finish trend prediction. We have drawn on this knowledge and along with our local Australian insights produced an extensive selection of designer colors in a range of gloss levels, textures and metallic effects.

Color Freedom:

The **Interpon D2015 Ultriva™** range features a broad selection of colors and special finishes ensuring architects and specifiers have complete Color Freedom.

We also understand there are some instances where unique colors and finishes are needed to satisfy specific design criteria. Our leading color match service provides rapid supply on request while also offering two distinct, fast, small batch color matching, manufacturing and delivery services.

Interpon MiniB™ is available for order sizes from 60kg, **Interpon MiniB™ Micro** for order sizes from 20kg. 5kg Packs are available for stock colors only. These small batch services allow for almost any color and finish providing maximum design freedom. Most importantly AkzoNobel provide these services quickly and economically.

SUSTAINABILITY

Having long recognised the importance of sustainability, and as a member of the Green Building Council Australia, EVERY COLOR IS GREEN in our **Interpon D2015 Ultriva™** range. As detailed in the Interpon D2015 Ultriva™ technical datasheet, the range qualifies for several Green Star credits. With no VOC's, low emissions and minimal product waste our powder coatings offer not only a cost effective but environmentally sustainable option to alternatives such as liquid paints. For further eco-sustainability and Green Star Rating credit advice please contact the AkzoNobel Customer Care Team.

Interpon D APPROVED APPLICATORS NETWORK

Supporting Interpon's Global Warranty Program, the Interpon D Approved Applicator Network is designed to ensure Interpon D coatings are applied in accordance with the requirements of both AkzoNobel, and global industry standards. We conduct an extensive evaluation process and only issue approval to applicators who meet our stringent criteria, ensuring the highest level of customer satisfaction possible.

How to Specify:

Once you have chosen AkzoNobel for your project it's important to use the correct product. We make specifying our powder coatings easy, simply:

- nominate the Interpon product
e.g. **Interpon D2015 Ultriva™**,
and
- nominate the color, finish and product code
e.g. Titanium Pearl Matt YY263A.

Please contact the AkzoNobel Customer Care Team for additional specification support and advice.

AKZONOBEL – YOUR PARTNER IN SUCCESS

AkzoNobel has a range of materials and resources to help you succeed with your project – from the selection of product, coordination of color, meeting of project specifications, choosing an approved applicator right through to ongoing care and maintenance advice. The Customer Care Team at AkzoNobel is ready and willing to assist you with your next project.
